### Hogyan történik a kiválasztás?

A Névjegyzékben szereplők nevei és életrajzai számos esetben olyan rangos kiadványokban is feltűnnek, amelyek a világ legtöbb könyvtárában megtalálhatók, pl. 500 Befolyásos Vezető, Nemzetközi Üzletasszony Ki -Kicsoda, 2000 Tiszteletreméltó Amerikai Nő, A Tisztelet Nemzetközi Könyve, A Világ 5000 Személyisége.

THE DISTINCTION OF BEING LISTED IN

# The International Directory of Distinguished Leadership

THE INTERNATIONAL DIRECTORY OF DISTINGUISHED LEADERSHIP honors those individuals who are contributing to a better society by building better communities through outstanding service on local, state or international levels. These leaders contribute their time and talents to civic organizations, public and private schools, universities and colleges, government organizations, professional groups, the church, business corporations, and more; many help financially by personal contributions to worthwhile causes. Included among those to be listed and recognized in this prominent DIRECTORY will be doctors, educators, scientists, researchers, political leaders, businessmen and women, artists, writers, heads of church, recreation directors, people involved in public service and communities in many ways.

## HOW SELECTIONS ARE MADE

Persons whose names, addresses and biographical data appear in this world DIRECTORY are selected by the Board of Directors and the Governing Board of Editors of The American Biographical Institute from nominations furnished by worldwide public officials, colleges and universities, and by professional, business and civic organizations. The Boards also have selected individuals from various sources who in their opinions are worthy of this honor and recognition. The Institute does reserve the right to reject those biographies which do not meet the standards of the publication and to use the correct format set for this particular edition when editing entries.

Uniform selection procedures are followed by the editors according to criteria common to other leading reference

works which have international distribution and interest. Many of the individuals honored and selected for THE INTERNATIONAL DIRECTORY OF DISTINGUISHED LEADERSHIP are persons whose biographies appear in the Institute's biographical reference works in libraries throughout the world. These works are *500 Leaders of Influence*, *International Who's Who of Professional and Business Women*, *2,000 Notable American Women*, *International Book of Honor* and *5,000 Personalities of the World*, among others.

Every person chosen for listing in an American Biographical Institute publication is selected, therefore, through standards aimed at genuine reference interest within the scope of the particular work being compiled. The distinction of being so selected cannot be obtained by request or any variance from established procedures thereby assuring that biographees who are honored and recognized are truly "persons who may be inquired about."

Copies of this publication will be distributed throughout the world and particularly to major libraries of the countries represented within the DIRECTORY. In the United States, copies will be sent to the Library of Congress, Washington, D.C., and to state libraries as a permanent record of distinguished world leaders. Also, copies are made available to interested individuals, organizations, businesses, and to public and private libraries for research and reference. As with other publications by the American Biographical Institute, the DIRECTORY, in appearance as well as prestige, will be a proud addition to any personal or professional library and will contain ingredients of lasting worth.
